ARMOURSHIELD ROLLER GRILLE

Armourshield is a tough security grille with an elegant, open look and feel to it. HVP's Armourshield grilles are ideal for shop fronts, reception counters and serveries.

The combination of high security and maximum amount of open space make this grille perfect for shop fronts. Ideally, it's placed behind glazing, where it forms a double barrier with the glass. The Armourshield is available in two patterns 'shell' and 'ring', with two aperture sizes, one larger, ideal for larger openings and a smaller aperture, suited to smaller openings. They create an attractive and securely locked barrier with maximum visibility.

Key features

- Great visibility of goods on display
- Full natural light and air
- Steel rods in zinc silver or gold
- Stainless steel rods option available

Suitable for

- Retail shopfronts
- Bars and serveries
- Reception counters
- Car park openings

Armourshield roller grilles - Elegant security with good visibility
